The Strathmore District School Fair

::O::

This event which usually holds the first place in interest for the pupils, teachers and parents for the two days of exhibition, and the previous weeks of preparation, was unfortunately curtailed this year, owing to a wise precaution to prevent any danger of possible spread of Infantile Paralysis. The result was that only work which had been prepared in school was shown.

Col McGregor, Inspector of Schools for this district and Mr Hutton, Art instructor in the Calgary Normal School were the judges.

GRASSHOPPER WARNING

Farmers are reminded of the necessity of cultivating stubble land for the purpose of destroying grasshopper eggs. This should be done as soon as the land is clear of stooks, as the longer the eggs are exposed before freezeup the greater the damage to them. Neglect of this precaution is simply an invitation to another grasshopper out-break on your farm next year. It is becoming inireasingly apparent that even where poisoning has been peraistently carried out that the scattering of grasshoppers which remain may, under favorable conditions lay sufficient eggs to produce a very large crop of hoppers next year, and the grasshoppers which remained to lay eggs this fall amounted to much more than a scattering throughout this territory. Destroying these eggs in the stubble land now is far easier, cheaper, and more sensible than leaving teh entire battle until next summer, and having to fight hordes of hoppers by poison.

Also it is an imposition upon the Government and Municipal authorities to expect large quantities of hopper bait year after year, where the situation can be largely controlled without this expenditure.

RT. HON. W. L. MacKENZIE KING

Premier-elect of Canada, who was elected to Parliament Monday with a majority of 165 seats out of a possible 245.

PREMIER WM. ABERHART

Premier of Alberta whose election in August last swept the Province and who in Monday's election gained 18 out of 17 Alberta Seats, the other two representatives being Hon R B Bennett and J A Mackinnon, Edmonton.

Monday's vote by its overwhelming odds does away with any pre election discussions of a stalemate or national government. The confidence evidently bestowed in the Liberal Policy and its Leader places equally great responsibilities. They have a heavy task ahead. The showing of the Reconstruction is a surprise. The toppling of so many of the Cabinet Ministers was in keeping. They were not generally known. The next point of interest is— Who will form the new cabinet?

Mrs Wright and Mrs Saunders were in charge of the Home Cooking Table, Mrs Storey, Mrs McNeil and Mrs D Newmeyer had charge of the tea arrangements with Mrs Anson Chase, Edith Hirtle and Margaret Freeman as servitors and Betty Caldwell and Rosie Wilkinson carrying trays to outside patrons.

MR CAMERON'S ROOM HAS INTERESTING HIKE

::O::

Monday morning, according to previous plans Mr Cameron's Room, comprising Grades 6, 7 and 8 provided with sandwiches and cocoa in abundance set forth on a nature study outing in the direction of Eagle Lake.

The first object of interest was a hawk with a broken pinion, which was carefully bestowed in Mr Hay's cars. Various types of weeds, birds, and sands were gathered, before lunch. Hot cocoa made in the out of doors tasted better than ever before, and no appetizer was necessary.

The trip to Eagle Lake was made, and on the returnjourney a number of happy but weary hikers found refuge in a passing car and truck.

"Boy I'm tired—but it was a swell day," was the unanimous verdict.

The night was coming very fast;
It reached the gate as I ran past.

The pigeons had gone to the tower of the church
And all the hens were on their perch.

Up in the barn and I thought I heard
A piece of a little purring word.

I stepped inside, waiting and saying,
To try to hear what the hens were saying.

They were asking something, that was plain
Asking it over and over and over again.

One of them moved and turned a round
Her feathers made a ruffled sound

A ruffled sound like a bushful of birds
And she said her little asking words

She pushed her head close into her wing,
But nothing answered anything.

("Hen" by Elizabeth M Roberts)

There are great victories and struggles and noble acts of heroism done every day— in nooks and corners, and in little households, and in men's and women's hearts—any one of which might reconcile the sternest man to such a world, and fill him with belief and hope in it. —Dickens

It is useless to quarrel with an old man for being reactionary, and with a very young man for being revolutionary. Fifty years hence the second will be what the first is now. D. Inge

We cannot say 'Let there be peace' and go about other business. Peace must be the result of unceasing endeavor. —Herbert Hoover.

Beware of the fury of a patient man. —Dryden

The foolish man seeks happiness in the distance; the wise grows it under his feet. —James Oppenheim

There are thousands hacking at the branches of evil to one who is striking at the root.

Today is your day and mine, the only day that we have, the day in which we play our part. What our part may signify in the great whole we may not understand, but we are here to play it, and now is our time. This we know; It is a part of action, not of whinning. It is a part of love, not of cynicism. It is for us to express love in terms of human helpfulness. This we know, that any other course of life leads toward decay and waste.

HERVEY NOTES

Mrs Bordeaux is staying at the hofe of her sister. We hope the former will soon be in the best of health.

Miss D May and Miss Peter were the guests of the Taylor family on Sunday.

The death of Sergt. Wallace came as a great shock to the people of the Hervey District.

Threshing has caused a lull on the Hervey traffic.

Mr. May injured his thumb last week, when he tried to shut the car door on it.

Mr. and Mrs. Henry Hish of Weston Ontario, are visitors at the Laycraft home. Mr. Hesh is four score and twenty, still active, especially in peace making.

It is reported one farmer in our midst has played out five threshing crews this season, but what if men do come and go so long as the gold pours in.

Julius Scvhober had what Bill Knap terms a religious horse, rather than work on the Sabbath day he threw up the sponge.

Mr. Kondo has two threshing crews on his place, pretty good, maybe, I think so.

CARSELAND

In St Phillip's Church an interesting event took place at nine o'clock on the morning of October 8th when Michael Joseph Miller of Carmel, Sask, and Melva Marie Cote, of Carseland were united in marriage. Mr Miller is a son of Mr and Mrs J Miller of Thamesville, Ontario, and Miss Cote is a daughter of Walter and the late Mrs Cote of this point. The bride was elegantly gowned in a dress of white triple sheer, with flowing veil and orange blossom wreath. She carried a bouquet of pink roses. Her travelling dress was a green crepe ensemble with brown accessories. Mrs D Fickle, sister of the bride, was the matron of honour and wore a beige ensemble with brown accessories. Mr Pickle supported the groom. The wedding breakfast was served at the bride's home, and after a brief honeymoon the couple will be at home at Carmel, Sask, where Mr Miller is engaged in teaching. Rev Father Cosman of Strathmore, officiated at the ceremony.

The two paralysis cases from this district are making good progress and no more are reported.

The supper and entertainment planned by the United Church Ladies Aid has bbeen postponed from Monday, the 21st to Monday the 28th and plans are going forward for completing the arrangements.

In the quietest election on record the silent ballot still does it work.

The United Church Sunday School will be re- again on Sunday next, at 10.30. Church Service at 11.45. The Day School is re-opening on Monday, the 21st.

ANY ELEVATOR WILL HANDLE BOARD WHEAT

In addition to accepting farmers' grain for outright purchase in the usual manner, every line elevator in Western Canada acts as agent for the Canadian Wheat Board in receiving, handling, making payment for and shipping Board wheat. Ever since the formation of the Board the line elevator companies have been lending all possible assistance to the Board in their operations and have placed their grain handling organizations at the disposal of the Board. Any farmer, whether he wishes to sell his grain outright or through the Canadian Wheat Board, can do so at any line elevator.

MONDAY'S ELECTION

"And everybody said" quoth he, "that twas a famous victory."

In an election which aroused keen er thinking, and more general interest, than any preceding in the Dominion the Liberals were voted to office by a number greatest in the history of Canada. At 5 o'clock returns began to come infrom Eastern Provinces, which proved an index to the general trend.

Now on Mackenzie King and his Cabinet rests a very grave responsibility. We believe he will be as equal to it as is humanly possible.

Prime Minister Bennett who made a strong fight throughout the campaign received strong endorsation from his own seat of Calgary West. While nothing succeeds like success and we can imagine it a little trying for Mr Bennett to take aseat on the 'Left Wing' he will none the less be an exceedingly valuable member, in the House, and no doubt Premier King will frequently ask his advice. As we see it, the vote was not on personal grounds butone of definite confidence in the Liberal policy.

CHROMIUM INDUSTRY

Smelting of chromium has been commenced in Canada at Sault Ste. Maarie, Ontario. The first ore was thrown into the furnace on August 23. Demand for chromium has greatly increased in recent years, owing to the development of high grade alloy steels containing chromium, such as the stainless steels. Other important uses of the metal have also been developed in chromite refractories and in the expanding use of chromium plating in the automobile industry. The commercial source of chromium is chromite, and the greatest part of the present world supply comes from Rhodesia. Other important chromite deposits are found in New Caledonia, India, Cuba, Greece, Yugo Slava, Russia and South Africa. Canadian deposits are found in Ontario, Quebec and British Columbia and the ore being smelted at the Soo comes from Ontario deposits.

TO THE ROCKIES

Ye mammoth pyramids of rock, divinely poised,
Tales of your grandeur o'er the earth abroad are noised;
Your awe-inspiring peaks earth's sons behold aghast—
So will their offspring down each age while time shall last.

From north to south, the backbone of the continent,
Heaven's passing clouds are by your lofty summits rent;
And twixt your buttressed walls in prisoned glaciers lie—
Glittering, vast, with ocean's calm and sheen they vie.

Eternal sentinels, vested in mists and snows,
Your secrets since creation's dawn God only knows.
In silent majesty from age to age ye view
Celestial orbs in endless rounds their course pursue.

Emblems of Deity, reaching from earth to sky,
Time's changes and decay serenely ye defy;
The dynasties of men in Empire's rise and wane
While ye, proud monarchs, throned in rock, prolong your reign.

With tranquil steadfastness and constancy each day
Your great Creator's power and glory ye display,
While man, creation's crown, image of the Divine,
Oftimes doth fail to glorify his God and thine.

CHRISTIAN SCIENCE

At all Christian Science Churches next Sunday, the subject of the Lesson-Sermon will be "Probation after Death." The following is one of the Scriptural quotations contained in the Lesson-Sermon; "If the clouds be full of rain they empty themselves upon the earth; and if the tree fall toward the south, or toward the north, in the place where the tree falleth, there it shall be" Ecclesiastes 11:3). One of hte correlative passages from Science and Health with Key to the Scriptures, by Mary Baker Eddy, is as follows (page 291); "In the place where the tree falleth, there it shall be". So we read in Ecclesiastes. This text has beben transformed into the popular proverb, As the tree falls, so it must lie. As man falleth asleep, so shall he awake. As death findeth mortal man, so shall he be after death, until probation and growth shall effect the needed change."

Participation Certificates

Participation certificates issued to producers who deliver their wheat to the Canadian Wheat Board, should be retained in the possession of the producer, says a statement issued from the Board headquarters, Thursday.

Several farmers have already forwarded their certificates to the Board offices and the Board again draws the attention of growers to the printed remarks on the certificates which instruct producers to preserve these certificates carefully for surrender to the Board when required.

When it becomes necessary for producers to surrender their certificates to the Board, instructions to that effect will be issued by the Board. Meantime, all growers holding these certificates should carefully preserve and retain them in their own possession.

ARTIFICIAL ICE IN CALGARY

The artificial ice rink opened in Calgary on Tuesday has been a dream of Calgary sportsmen for 25 years. At a cost of $55,000.00 it is now complete This rink it is expected, will make Calgary the centre of winter sports, for the prairies. No sudden chinook winds or thaws will now interfere with the game. Much credit was paid Dr. J. H. Birch and Lloyd Turner and others by Mayor Davidson for their continual interest in seeing the project through to completion.
